

policy, systems and environmental changes

votes/comments

1. The SUSFC shall **support ongoing lead testing** to make sure pipes are safe at existing hydration stations and in private spaces.
2. The SUSFC shall **support efforts to change pediatric screening forms** to include information about free testing for WIC eligible families.
3. The SUSFC shall **educate local policymakers** about SF need for:
 - A. **Increasing tri-level hydration stations** (in the public realm and school sites). Prioritizing communities where consumption of public water is low (high percentages of immigrant and low-income residents) and planning and budgeting for maintenance of hydration stations.
 - B. **Posting multilingual signage** that assures safety/ testing of hydration station’s water. Education around stations, QR codes. Tech side: apps, maps and print resources
 - C. **Beautifying** area around water stations to make them more appealing. Partner with arts commission or engage youth to design something, community service project
 - D. **Evaluation**
 - E. **Increasing funding and other resources** to make tap water safe and accessible. Advocate for SSB tax revenue to support equitable access to safe tap water
4. The SUSFC shall **support efforts to increase access to tap water** such as:
 - A. Requiring **Privately-owned Public Open Space** to include hydration stations.
 - B. Providing **mobile potable options for public events**.

awareness, education and promotion

votes/comments

1. The SUSFC shall **plan, implement and evaluate multi-lingual and multi-media campaigns**, targeting locations where chronic disease disparities are greater with unified, consistent/evergreen messages and on multiple platforms (billboard; bus shelters; internet and QR codes; paper and other low-tech outreach). Recurring, tiered, multi-stage approach (e.g. relaunch annually). Engage athletes, cultural figures as ambassadors. Topics may include water safety, lead testing opportunities, safe water bottles, benefits of consuming water.
2. The SUSFC shall **mobilize and invest in community-based health education**
3. The SUSFC shall **engage SFUSD in an education campaign** and engage youth outreach workers in water campaign.
4. The SUSFC shall **support efforts to provide multi-lingual signage of testing/water safety** at hydration stations.
